

MACANDREWS

Door to Door Multimodal Transport for
Dry & Temperature Controlled Cargo

Part of the CMA CGM Group of Companies

DESIGNING YOUR MULTIMODAL SUPPLY CHAIN SOLUTION

MacAndrews offers Intra-European door to door or port to port transport, using multimodal routes combining Road, Rail and Sea in shipping containers. We strive to simplify the transport process for manufacturers, retailers, and freight buyers to achieve a more efficient Supply Chain. Our transport solutions by sea, rail, road and barge connect to most European destinations linking the **Iberian Peninsula (Spain and Portugal)** to the **United Kingdom and Ireland**, as well as **France, Holland, Scandinavia, Poland, The Baltics and Russia**. We are part of the third **largest** shipping company in the world, **CMA CGM Group**.

DEDICATED BLOCK TRAINS

Our specially designed trademarked Reefer and Ambient Block Train services in Spain makes us the largest user of the rail network. We currently operate an average of 51 Block Trains per week from Barcelona, Madrid, Valencia, Seville, Zaragoza and Burgos through Bilbao for dry goods and a dedicated Murcia to Bilbao Direct Reefer Trains operate twice weekly consisting of 28 reefers per block train. In Scandinavia, we currently operate rail links from Helsingborg Port, connecting hinterlands of Gothenburg, Stockholm, Oslo, Gävle, Nörrköping, Uddevalla, Västerås and Hallsberg.

WAREHOUSING SOLUTIONS

Fully-fledged, integrated logistics and transport services are part of our service offerings. We also offer hi-tech cold storage, sophisticated warehousing solutions and a domestic transport system offering customers comprehensive logistics solutions. Our main warehousing hub in Bilbao has 8 Bays for loading and unloading with 500 square metres of refrigeration allowing consolidation for delivering Spanish fresh produce throughout Europe, through vessels which call at the Port of Bilbao.

DOOR TO DOOR TRANSPORT SOLUTIONS

MacAndrews' door-to-door services integrate collection, shipment and delivery as one seamless solution. (we also offer Port to Port or Port to Door, Door to Port)

OUT OF GAUGE SOLUTIONS

MacAndrews has a specialised team handling the transport for larger projects which may include out-of-gauge cargo within our Intra European Network.

TEMPERATURE CONTROLLED TRANSPORT

Securely maintaining the cold chain in our 20', 40, and 45 ft reefer containers from pick up to drop off.

RIGHT EQUIPMENT

Our 45' High Cube Pallet Wide range ensures you get the same load offering as you would on a truck. MacAndrews as part of the CMA CGM Group owns one of the largest and youngest fleets of containers designed for both the transport of perishable goods in a temperature-controlled environment and dry cargoes.

VALUE ADDED SERVICES

From our warehouse and cross docking facilities Europe wide, we also offer milk run picks up from multi locations to be consolidated at our warehouse for onward delivery. We also offer a picking and packing service. Cargo insurance is also a service we can offer as an add on.

LLOYDS AGENTS

In Madrid and Barcelona, we act as Lloyd's Agents, surveyors and claims adjusters for more than 250 insurance companies.

WHY USE US?

- Greener and sustainable transport option to lower your carbon footprint (60% saving on average)

Your European Supply Chain

MacAndrews Logistics Model

Cost Efficiency, Better Control & Greener

YOUR INDUSTRY

Using our tailor made solutions, MacAndrews work with many high profile brands within the industries of **Automotive , Consumer Products, Pharmaceuticals , Beers, Wines & Spirits, Forest Products , Chemicals and Perishables**. MacAndrews' client base includes large and medium-sized manufacturers, shippers and other logistics service providers who's priorities and **Corporate Social Responsibility (CSR)** target is minimise their **carbon footprint**.

PERISHABLES

Our dedicated specialists provide “field-to-shelf” services to make sure your shipments arrive in the right place, at the right time, in optimal condition ranging from -35°C to 35°C . You will benefit from our high security and safety measures, speed to market, full supply chain visibility and compliance. Our focus is on flexible transportation and logistics solutions that safeguard product integrity, extend shelf life and minimise wastage. Part of this range includes Temperature Controlled ISO containers, Reefer Block Trains, Plug- ins and Temperature Controlled Cross Docking.

BEERS, WINES & SPIRITS

Our services include multiple collections from individual wine growers and spirit distillers, exporters, importers and multinational retailers . We offer direct pick-up & transportation of loose or palletised goods from producers for consolidation to bulk wine movements using 20-foot ISO steel tanks, or flexi-tanks with a volume of up to 24,000 litres, loaded into 20-ft. containers.

CONSUMER GOODS (FMCG)

FMCG Goods (fast moving consumer goods) are normally perishable items which are delivered in big quantities. These items can be food stuffs such as soft drinks and toiletries or disposable electronic goods such as low end disposable cameras. FMCG goods offer a profitable market solution for retailers as the items are low cost and with good profit margins. To meet client requirements, MacAndrews Multimodal Transport model adds value by **delivering efficiency, planned loads for cost savings**, and being able to cope with market demands **during peak seasons**.

PHARMACEUTICALS & COSMETICS

End-to-end visibility and pro-active temperature monitoring & control to support the pharmaceutical industry including temperature controlled solutions, validated processes with reliable transportation within our own

controlled network. We identify ways how healthcare and cosmetic companies can collaborate to realise supply chain cost reductions and service synergies through one managed supply chain network.

FASHION

The fashion industry relies on time-definite delivery to consumers. Our tailor-made services address the special requirements of the industry and ensure products reach the consumer on time. This is achieved by seamlessly connecting all parties involved in the supply chain to ensure availability of the right product, in the right quantity, in the right condition, at the right place and time. With greener initiatives being pressed on and streamlining across industries, **GOH seems to be less of a requirement with flat packing becoming more apparent.** MacAndrews 45' equipment range can ensure maximum payloads, scheduled deliveries within a sustainable and more economically viable alternative to road transportation.

Paper, Wood & Recycled Products (SRM)

Our operating processes are already focused on efficiency, which in turn delivers immediate environmental benefits. For example, moving 50% of cargo off 100% road into a multimodal chain can measurably deliver substantial reductions in fuel consumption and a company's carbon footprint. Products we carry include:

- Timber & Lumber** – logs, sawn timber, plus basic raw materials of the tree
- Wooden Products** - plywood, MDF, flooring, decking, pallets
- Pulp & Paper** – copy paper, tissue, carton board, print on reels, baled pulp, labels, food-packaging
- Recycled Products** – also known as **SRM** or **Secondary Recycled Materials**

AUTOMOTIVE

The automotive industry's complex supply systems pose a particular challenge and requires delivery of components from numerous companies in different countries must be carefully coordinated to ensure a smooth manufacturing and assembly process. MacAndrews can provide transportation and logistics services that enable you to optimize your supply chains, meet tighter production schedules, and operate on the basis of lean production principles.

ELECTRONICS, MACHINERY & OTHER MANUFACTURES

MacAndrews offers supply chain optimisation and execution solutions to a wide range of companies of all types and sizes from small local businesses to major household names in the global arena in the electronics, machinery and other manufactures industries. These include subsectors such as :-

- Plastics and Plastic Products
- Paper and Fiber
- Energy and Power
- Mining & Construction
- General Industrial Goods
- Rail vehicles and Transportation
- Medical Equipment
- Paper and fiber

BUILDING MATERIALS (including CERAMIC, STONE,SLATE,TILES,BRICKS, METALS, STEEL)

Our 45ft high cube containers are equipped to **handle heavy payloads** . Our equipment is fit to carry slabs of natural stone, bricks and other larger types of building materials. We can also accommodate combinations of **slabs, crates and pallets to maximise use of container space** and payloads which makes Multimodal transport with us ideal for transporting heavy vehicles, cranes, wood or building material. Local teams oversee collection and deliveries and have in depth regional knowledge of transport regulations and requirements.

RESTRICTED & HAZARDOUS CARGO

MacAndrews provides service delivery for companies carrying **sensitive materials**. For restrictive and controlled products such as those listed below, individual capabilities must be in place to ensure the goods and materials are moved across safely. MacAndrews offers expert knowledge for handling **restricted** or **controlled** commodities. Some of the cargo we move today include:-

- **Chemicals**
- **Fuel**
- **Lubricants**
- **Gases**
- **Explosives**
- **Oxidising Substances**
- **Corrosive Substances**
- **Organic Peroxide**
